

XT4

XT4

Here's an entirely new concept.
What if you could slow down or speed up life
depending on what you desire?
You can do as much or as little as you wish.
You can make it up as you go along.
You can tune out or tune in at any given moment.
It's your choice. Your time.
And you can enjoy it however you want.
This new idea is fitted for whatever you decide,
wherever you're heading.

MEET THE FIRST-EVER 2019 XT4

NEW APPROACH. NEW DEPARTURE.

The first-ever 2019 XT4 is a fresh take on a crossover. Express your style, confidence and sense of sophistication without missing a beat.

Enjoy a drive so satisfying, you can go beyond the road. The XT4 has the power to transport you, without you ever wanting or needing to leave it.

Customize your XT4 with a Luxury, Premium Luxury or Sport model. All three choices showcase the exterior presence of an SUV, but in a compact and athletic style. The interior is loaded with tech and conveniences to easily connect and support you and your world. Amazingly, all of this comfortably fits with generous room to spare.

Your style. Your model. Introducing an all-new way to personalize your Cadillac. Choose from Luxury, Premium Luxury or Sport XT4 models. Each option offers unique appearances and interior features, giving your vehicle an identity of its own. The Sport model is inspired by performance. The Premium Luxury model is dressed in confident yet contemporary style. The final touch is you.

Left: XT4 Premium Luxury in Shadow Metallic. Right: XT4 Sport in Twilight Blue Metallic. Both vehicles shown with available equipment.

A HEIGHTENED SENSE OF AWARENESS

The XT4 offers a wide array of driver-assistance technologies that can help you become more aware and provide you with the extra peace of mind you deserve on the road.

ENOUGH ROOM FOR ANY ROUTE

With best-in-class rear-seat leg room, there's a surprising amount of passenger space. Along with 60/40 flat-folding rear seats, there's plenty of room for a weekend escape.

THE JOURNEY IS JUST AS THRILLING

The all-new 2.0L turbocharged engine produces 237 hp and 350 Nm of torque. It will feel like lift-off as soon as your foot touches the pedal. This entirely new engine is also engineered with Active Fuel Management. This technology automatically applies cylinder deactivation to not only make the drive enjoyable, but efficient. The engine is paired with a 9-speed transmission and available twin-clutch AWD, making every drive stand out.

MODERN SUV STYLE. ATHLETIC PROPORTIONS.

A bold, new design begins with a strong shoulder line that runs the full length of the side profile to help emphasize the powerful yet compact proportions of the XT4. A long wheelbase with each wheel pushed to the farthest corner presents a stable and planted appearance. You can customize your XT4 with particular design cues to match your personal style and passions. Select from three different models—Luxury, Premium Luxury and Sport—with each offering its own unique exterior accents.

Chic and grand, the Premium Luxury exterior finishes are accentuated with a bright metallic-accented grille surrounded by Galvano-finished chrome, satin-aluminum roof rails and side-window moldings. Body-color Illuminating Door Handles with satin-chrome accents guide the way. The front and rear lower fascia are finished with Medium Silver Metallic accents. Available 20" alloy wheels with a Diamond-Cut finish are a mark of distinction.

Inspired by performance, the Sport exterior finishes flash a gloss-black mesh grille framed by Galvano accents and gloss-black roof rails, window and front and rear lower fascia accents. The lens of the taillamps is tinted in a neutral density, and available 20" twin five-spoke alloy wheels include a stunning Diamond-Cut finish.

All of the models feature signature LED headlamps and taillamps. A bold design makes the headlamps bright and distinctive. The taillamps mirror the style of the headlamps, but slice through the air with a light blade silhouette that's stylish and unmistakably Cadillac.

EXTERIOR LED LIGHTS

35

DIFFERENT EXTERIOR
STYLE OPTIONS

An interior this inviting makes it difficult to leave. Discover a plethora of designs, comforts and conveniences inside the XT4. From stunning materials to stylish flexibility, sit back, relax, look sophisticated or take off. It's up to you how you'd like your interior to look. The hand-selected materials reflect a care and dedication to craftsmanship that are found in a variety of finishing touches, especially a new Cadillac cut-and-sewn process that spirals the stitching down the armrests on the doors. It's elegant and stunning.

Sophisticated, yet indulgent, the Premium Luxury interior design features leather seating surfaces and Diamond-Cut Aluminum, Linear Galaxy High-Gloss Wood or Finesse Calico High-Gloss Wood.

If a bolder look beckons, you'll enjoy the Sport model motif with a sport steering wheel and pedals, two optional carbon-fiber design accents or an authentic wood design. All bring a look as bold and sporty as the exterior.

1

METER OF BEST-IN-CLASS
REAR-SEAT LEG ROOM

5

AVAILABLE INTERIOR
DESIGN CHOICES

Guests and travel companions will enjoy class-leading rear-seat leg room. Everyone has plenty of space to stretch out, and all of their belongings can come along to boot. The XT4 has ample cargo room behind the rear seats. When you need even more cargo space, fold down the 60/40 rear seats. When folded down, the cargo floor and the folded seats create a flat surface for storage.

You'll be surprised and delighted to know that there are six storage areas in the front floor console alone. There's even a special place for your umbrella in both front doors and an adjustable phone holder in the console for your convenience.

Lastly, when your hands are full and you approach the rear of the XT4 with the key fob in your possession, simply apply a kicking motion underneath the left side of the rear fascia, and the available hands-free power liftgate with LED logo projection will open for you.

HIGH-TECH AT ITS SIMPLEST

The XT4 is smart in every way, with a tremendous number of technology features that allow you, your world and your vehicle to be more connected than ever. So you can sit back and enjoy the drive. A new rotary controller is one of four choices for operating the Cadillac user experience¹ interface. For example, to skip a track, you can say a voice command, use the touch-screen, press the rotary controller or press the button on the steering wheel.

Located front and center, there are two rows of hard buttons for quick access to frequently used features, such as climate controls and auxiliary features. There's also an infotainment Home Button that serves as a convenient shortcut.

All things wireless are simple, too. Charge quickly with available Wireless Charging² capabilities.

¹ Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices. ² The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/back cover. To check for phone or other device compatibility, see my.cadillac.com/learn or consult your carrier.

(A)

(B)

Cadillac's innovative available Rear Camera Mirror¹ allows you to use either a traditional inside mirror or a rearview camera mirror display that provides a wider, unobstructed view to check for traffic. The system uses a rear-facing camera that allows you to zoom, vertical tilt and adjust the brightness of the display. The camera lens also includes a washer to help keep the view clear.

Full-color and with selectable modes, the available Head-Up Display (HUD) helps you keep your eyes on the road by projecting useful information onto the windshield. In the XT4, no quality is overlooked — even air quality. An available air ionizer helps reduce airborne contaminants in the cabin, such as dust, pollen and odors, for the comfort of all occupants.

¹ Read the vehicle Owner's Manual for important feature limitations and information.

SURROUNDED BY AVAILABLE SAFETY INNOVATIONS

GAIN PRECIOUS TIME

Up to certain speeds, available **Forward and Reverse Automatic Braking** can sense potential forward and reverse collisions and automatically engage the brakes if you haven't already done so, helping to reduce the crash impact.

TRULY FORWARD THINKING

Available **Forward Collision Alert** monitors traffic ahead, alerting you if a potential front-end collision is imminent, while the available **Following Distance Indicator** shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

GRABS YOUR ATTENTION. SUBTLY.

Cadillac's available patented **Safety Alert Seat** sends a discreet pulse to the left, right or both sides of the driver's seat, indicating the direction of the threat—left, right or both.

TRAVEL THE STRAIGHT AND SMART

Using a camera to sense lane boundaries, available **Lane Keep Assist** can gently turn the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available **Safety Alert Seat**, available **Lane Departure Warning** shows a visual alert in the cluster and sends a warning pulse through the seat cushion when your vehicle crosses the detected lane marking.

AN ATTENTION-GRABBER

Available **Lane Change Alert** surveys the area well beyond the side blind zone and illuminates the side-mirror warning icon to alert you of a rapidly approaching vehicle. Available **Side Blind Zone Alert** monitors your blind zones, so if a moving vehicle is in the adjacent lane, it also illuminates the side-mirror icon. In both features, if you've activated your turn signal, the icon on the side mirror flashes to alert you.

SEE WHAT LIES BEHIND

The **HD Rear Vision Camera** automatically displays a live image of the area behind you on the **Cadillac user experience** screen. Guidelines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

SET YOUR SPACE

Available **Adaptive Cruise Control-Advanced** employs radar technology to maintain a selected distance between you and the detected vehicle ahead while you steer.

BE ALERTED EVEN IN REVERSE

When backing out of a parking space, Available **Rear Cross Traffic Alert** warns of oncoming traffic to either side of your vehicle with either an audible alert or a pulse to the available **Safety Alert Seat**.

A HIGHER LOOK AT WHAT SURROUNDS YOU

Available **HD Surround Vision** provides a bird's-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected onto the **Cadillac user experience** screen, helps increase your awareness during low-speed maneuvering.

Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for important feature limitations and information.

TURBOCHARGED POWER. TIGHT TURNING CONTROL.

At the heart of the XT4 is its powerplant. An all-new 2.0L turbocharged engine provides quick and powerful acceleration, thanks to its twin-scroll turbocharger and impressive torque range. An available advanced twin-clutch All-Wheel-Drive system maximizes every thrill with impressive traction. The engine is paired with a 9-speed automatic transmission for a smooth and efficient ride. That means more time to enjoy open roads, new adventures and roadside memories.

Next-generation Electronic Precision Shift is a modern, convenient way to shift. A new design showcases a straight up-and-down gear selection for more intuitive operation. Paddle shifters nestled behind the steering wheel provide quick shifts with just a tap, for those who want a more engaging drive.

Selectable driving modes allow you to customize your driving preferences. Each mode provides a unique driving experience with changes that may include accelerator pedal mapping, transmission shift points, steering effort and available Active Sport Suspension performance.

1. Functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. **2.** If you decide to continue service after your trial, your selected subscription plan will automatically renew thereafter. You will be charged at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. ©2018 SiriusXM Radio, Inc. All rights reserved. **3.** Go to my.cadillac.com/learn to find out which phones are compatible with the vehicle. **4.** Not compatible with all devices. **5.** Read the vehicle Owner's Manual for important feature limitations and information. **6.** A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and child safety seat instructions for more safety information. **7.** Map coverage available in the United States, Puerto Rico and Canada. **8.** The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/back cover. To check for phone or other device compatibility, see my.cadillac.com/learn or consult your carrier.

OWNER BENEFITS

Our owners deserve it all. That’s why 2019 vehicles are backed by a comprehensive suite of owner benefits. To learn more, visit cadillac.com/ownership/benefits.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design, features, materials or workmanship of any alterations by such employers.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes and models.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

A NOTE ON CHILD SAFETY

Always use seat belts and the correct child restraint for your child’s age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See the Owner’s Manual and the child safety seat instructions for more safety information.

TRAILERING AND OFF-ROAD DRIVING INFORMATION

Please go to cadillac.com and carefully review the vehicle Owner’s Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for

complete details. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Small-Lux SUV segment and latest available competitive information. Excludes other GM vehicles.

FLEET ORDERS

Some standard content may be deleted on fleet orders. See dealer for details.

NEW-VEHICLE LIMITED WARRANTY

6-YEAR/100,000-KM TRANSFERABLE POWERTRAIN LIMITED WARRANTY Every 2019 Cadillac comes with a 6-year/100,000-km (whichever comes first) transferable Powertrain Limited Warranty. 24/7 Roadside Assistance and Courtesy Transportation are also offered for the duration of the Powertrain Limited Warranty. Please see your Cadillac dealer for details.

4-YEAR/100,000-KM BUMPER-TO-BUMPER LIMITED WARRANTY Cadillac will warrant each 2019 vehicle from bumper to bumper for 4 years/100,000 km (whichever comes first; see dealer for details), with no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. Cosmetic corrosion resulting from defects is also covered under the Bumper-to-Bumper Limited Warranty. In addition, rust-through corrosion will be covered for 6 years/100,000 km (whichever comes first; see dealer for details).
